

# CAPABILITY STATEMENT

## COMPANY OVERVIEW

ClearSight Therapeutics, Inc. is advancing a new platform for over-the-counter (OTC) therapeutics designed to meet critical needs in the eye care industry. The company is developing a first-in-class treatment using a proven antimicrobial biopolymer widely recognized in wound care for its safety and effectiveness. This technology offers broad-spectrum antimicrobial properties and is being formulated for applications such as dry eye relief, contact lens rewetting, and the treatment of acute infectious conjunctivitis (pink eye).

ClearSight is developing a next-generation platform of over-the-counter eye care therapeutics using a proven antimicrobial biopolymer known for its safety and effectiveness in wound care. The company is formulating this technology as a first-in-class treatment for common eye conditions, including dry eye, contact lens rewetting, and acute infectious conjunctivitis (pink eye). With broad-spectrum antimicrobial properties, the product is designed to provide both symptom relief and microbial protection. Supported by high-quality manufacturing standards, expertise in the eye care sector, and an extensive network of ophthalmology key opinion leaders, ClearSight is positioned to bring safe, effective, and accessible eye health solutions to the market.

## CORE COMPETENCIES

- Safe OTC Eye Drops
- Antimicrobial Efficacy
- High Quality Manufacturing
- Eye Care Industry Expertise
- Extensive Ophthalmology Key Opinion Leader Network

## DIFFERENTIATORS

ClearSight is the only company applying a powerful antimicrobial biopolymer, proven safe and effective in wound care, to the treatment of common eye conditions. This approach addresses an unmet need in the eye care market by delivering broad-spectrum antimicrobial protection alongside therapeutic relief for conditions such as dry eye, contact lens rewetting, and infectious conjunctivitis. By repurposing this established biopolymer, ClearSight offers a unique, science-backed solution for improving eye health and reducing the risk of infection.
